Note for foreign judges about building courses:

- Before the start and after the finish line, there must be sufficient free space of at least 6 meters.
- No obstacle may be placed inside the circle / square, except in the H0 category, where a maximum of 1 obstacle is allowed inside the square.
- Obstacles that do not directly follow each other must be spaced at least 3 meters apart.
- The minimum distance between an obstacle and the guiding area is 2 meters, with the exception of the H0 category.
